

# Exposure Intelligence Report

Scan Time: 11 Jan 2026, 01:54:44

---

## Executive Summary

- Platforms Identified: 3
- Overall Risk Score: 45 / 100 (MEDIUM)

## Exposure Risk Level:

**MEDIUM RISK**

## Identified Platforms

- Instagram: [https://www.instagram.com/nithishvar\\_a20/](https://www.instagram.com/nithishvar_a20/)
- Facebook: [https://www.facebook.com/nithishvar\\_a20](https://www.facebook.com/nithishvar_a20)
- Threads: [https://www.threads.net/@nithishvar\\_a20](https://www.threads.net/@nithishvar_a20)

## Key Risk Factors

- Instagram: Account exists but visibility could not be reliably determined due to platform access restrictions
  - Facebook: Public profile with low information exposure
  - Threads: Public profile with medium information exposure
  - Same identifier reused across multiple platforms, enabling identity correlation
  - Text contains potential personal identifier: 'address'
  - Text contains potential personal identifier: 'school'
- 

This report is generated using ethical Open Source Intelligence (OSINT) techniques only.  
No private, paid, or restricted data sources were accessed. Results indicate potential exposure, not certainty.
